

*Hi Nyasaland Police,*

It's nice to keep in touch with you, we in the South have had a very mixed lot of weather over the Easter holiday with lots of high winds.

In the April 2024 website update I was interested to see the life of Arthur Dent who Reg and I knew so very well and we had some lovely times - outings on his boat on the lake and picnics where he would provide the food, often a whole chicken in a saucepan - which was very good. I used to do a fish curry or pickled fish when he came to us for lunch. Our children enjoyed his company too - fascinated as they were with the hole he had in his leg – where, he told them, he kept a pet mouse.
